

MOMENT IN TIME

We're creating a time capsule to mark *H&G's* 70th birthday. And you can have your say, too!

Many stories in this issue address the passing parade of home fashions and objects of desire. So we thought it would be fun to create a time capsule full of items that reveal who we are now – to be opened in 10 years' time.

What will be made of the current passion for smashed avocado, sous vide cooking and smoked food? Will kale and kombucha be staples of the healthy diet in 2028? Will a latte still be the most-ordered coffee in the country, and rosé the top summer lunch tippie? Will mindfulness books sit alongside Dan Brown blockbusters in the bestsellers' list? What will be the reaction to the 2018 Pantone colour of the year, Ultra Violet? Will fidget spinners have spun around again? Will plastic bags have vanished? Will our homes be run by AI? Will hexagonal tiles have run their course?

We will have to wait a decade to find out. Our 'capsule', manufactured by Brisbane company Time Capsules Australia, will be stored at the Caroline Simpson Library & Research Collection, part of Sydney Living Museums, and opened on March 1, 2028. Here's a selection of the items to be archived. Do let us know if you think we've missed anything. **H&G**

What everyday items are so 2018? Send suggestions for *H&G's* time capsule to h&g@bauer-media.com.au.

AUSTRALIAN HOUSE & GARDEN
 This time capsule was created to mark the occasion of *Australian House & Garden* magazine's 70th anniversary, celebrated at The Mint, Sydney, March 1st, 2018. Entrusted to the Caroline Simpson Library and Research Collection, Sydney Living Museums, it is to be opened March 1st, 2028.
